

BROTOLOC NORTH HOPE VALLEY AFH PROGRAM STATEMENT

01/23/2025

Description:

^{amb}

Hope Valley is a licensed Adult Family Home, under Wisconsin Administrative Code DHS 88, to serve up to four (4) adults (18 years or older) with Intellectual Disabilities, Mental Illness, AODA issues, and/or those who are dually diagnosed. This home is an ambulatory only home for up to (3) residents on the main level, and up to (1) resident on the lower level. It is located at 3330 W. Florida Ave, Appleton, Wisconsin 54914.

Hope Valley is a beautiful, 2 level home that is located in a quiet neighborhood on Appleton's West Side. The house is set on a quiet residential street, with mature trees with a generous backyard with patio and firepit. Inside the house are 3 upper-level bedrooms, 1 lower-level bedroom, 2 bathrooms, a kitchen, 2 living rooms, and an office. The extra living areas allow for more privacy for the residents and also create a spacious living environment. In addition to the physical environment, Hope Valley is known for its warm, family-like atmosphere.

Admission Policy:

Residents considered for admission to Hope Valley must be programmatically compatible with each other.

Hope Valley welcomes individuals who exhibit challenging behaviors, but may exclude persons who are actively suicidal, who present a chronic and severe danger to themselves or others, and/or who are destructive of property, unless an Individual Service Plan identifies the areas of risk and serves as a reasonable plan to minimize these risks. Initial referral and assessment information must be at Hope Valley upon admission of resident.

Within 90 days prior to admission, each resident must be examined by a physician or registered nurse and found to be free of communicable disease. Documentation of this examination is required prior to admission.

Letters of Guardianship, Protective Placement or any applicable legal documents must be at Hope Valley upon admission of resident.

Program Goals:

The overall goal of Hope Valley is to maximize the residents' cognitive, affective, and physical health as well as psychomotor skills to help them obtain their highest possible level of functioning. This will be accomplished through attitudes of hopefulness, a structured yet warm environment, individual treatment plans with realistic goals, and the opportunity for group living and social interaction. Imperative to the program is an emphasis on community integration to the greatest extent possible for each resident as well as promoting the highest level of independence achievable. Examples of such integration and independence are vocational training in the community, schooling, social interaction through community events and activities, and encouraging structured independent time within the community and at home. Each resident will have a goal-oriented individual service plan which will be discussed and reviewed with case managers, guardians, families, and others involved in their lives.

Specific program goals include:

1. Assisting and training residents in personal care activities such as dressing, grooming, and bathing.
2. Assisting and training residents in daily living skills such as meal planning and preparation, laundry, and household chores. Residents are expected to participate in the daily upkeep of the house.
3. Assisting residents in appropriate socialization including productive and independent leisure time, one-on-one interaction, and group activities.
4. Assisting residents in areas of money management, public transportation, and schooling.
5. Assisting residents in maintaining their health through appropriate diet and exercise.
6. Assisting residents in understanding and expressing their emotions and feelings and focusing on building good self-esteem and a sense of self worth.
7. Encouraging and helping residents in maintaining involvement with family members and other significant people in their lives.
8. Accurately assessing and responding to the unique and changing needs of each resident.

Staffing Levels and Training:

Hope Valley will have at least one staff on duty at all times. The ratio of staff to residents shall be adequate to meet the needs of the residents as defined in their assessments and individual service plans and for the type of facility.

All staff at Hope Valley are trained through Brotoloc North in-services as well as at least 24 hours of on the job training. Inservices include:

CPR	Observing & Charting	Introduction to TBI
First Aid	Seizures	Introduction to M.I.
Fire Safety	Vital Signs & Assessment	Introduction to I.D/D.D.
Medication Administration	Resident Rights	Personal Care Training
Standard Precautions	Sexuality Issues	Change in Condition
Dietary/Sanitation	AODA- Intro, Relapse, Recovery	HIPAA
Trauma Informed Care	Abuse Neglect, Misappropriation	Crisis Prevention (Challenging)

The staff are also all trained as Personal Care Workers. All training must be completed within the first three months of employment. Refresher courses are required for CPR, First Aid/Choking, Medication Monitoring, Vital Signs & Assessment, Resident Rights, including abuse, neglect and misappropriation, and Recognizing & Responding to Challenging Behaviors. In addition, extra trainings are offered throughout the year.

Safety Issues:

Hope Valley will train residents to develop a working knowledge and understanding of areas where precautions may be necessary, such as emergency plans in case of fire or severe weather, community safety as well as sexuality and abuse issues.

Program Services:

Program services are provided as described in each resident's Individual Service Plan in the following areas:

Health Monitoring/Psychiatric Services

Health Monitoring Services are provided by an on-staff Nurse who ensures that each resident receives an initial health screening assessment and at least yearly examinations by a physician. Brotoloc North provides for health care through a number of local health care providers, dentists, neurologists, psychiatrist, pharmacy services, and other specialists.

Medication Monitoring

Medications will be self-administered and or administrated by trained staff. Medication administration by authorized staff will occur only when ordered by a physician.

Leisure Time Services

Leisure Time Services are designed to maximize meaningful and productive activities in the community as well as at home. The staff stresses community involvement through frequent attendance at activities and utilization of various resources in the Fox Valley area. Residents have the opportunity to structure their leisure time individually and through group consensus, visiting the library, local shopping, malls, restaurants, picnics in a variety of area parks, sporting events, and special community events. Special events and tours are scheduled throughout the year, as well.

Family-style home-centered recreational activities include playing cards and board games, listening to music, various arts and craft projects, viewing television and videos, reading or book tapes and seasonal gatherings with all the Brotoloc North facilities located in the Fox Valley region. Participation in exercise programs, walking, and sports activities is also offered and encouraged.

Personal Care Services

Personal Care Services are provided by Brotoloc North staff who assist and support the residents in activities of daily living as specified in the residents' Individual Service Plans. Supportive home care service referrals will be made to outside providers when such services are ordered by a physician.
