

Rain Instant Pay

Brotoloc North in partnership with Rain means that you can access your earned wages before payday!

You will need to download the free Rain Instant Pay app from Apple App Store or Google app store and create an account.

Once you're set up and have wages available, you will be able to withdraw up to 40% of your earned wages.

You will get whatever you do not withdraw on your normal payday, and your balance will reset to \$0 every pay period. A fee of \$3.99 will be charged for each withdrawal - max 3 withdrawals per pay period (much less than payday loan interest).

Time worked is sent to Rain once a day. If you have a missed punch, you will not be able to draw off of those hours.

Only shifts that have a punch in and out will count. Timecard corrections made after the file is sent will not be counted.
